

What can the Census do?

Better roads. Classes that help South Carolina students prepare for good careers.

Programs that care for our senior citizens.

South Carolina receives funding for important things like these based on the U.S. Census. That's why it is so important for you to fill out the census form and mail it back when it comes in March.

It's never been easier. There are just ten questions that you can answer in just ten minutes. That's all it takes to help South Carolina get our share of more than \$400 billion in federal funds dispersed every year for real programs that make a real difference here in the Palmetto State.
